

Adobe® Creative Suite® 5 Design Premium

Deliver innovative ideas in print, web, interactive, and mobile design

Adobe Creative Suite 5 Design Premium combines the latest versions of:

-  Adobe Photoshop CS5 Extended
-  Adobe Illustrator CS5
-  Adobe InDesign CS5
-  Adobe Flash Catalyst CS5
-  Adobe Flash Professional CS5
-  Adobe Dreamweaver® CS5
-  Adobe Fireworks® CS5
-  Adobe Acrobat® 9 Pro

Additional components:

-  Adobe Bridge CS5
-  Adobe Device Central CS5

Integration with new Adobe CS Live online services*

Adobe Creative Suite 5 Design Premium software gives you new creative tools for crafting artwork that stands out. Finish work faster with enhancements to tools you use every day. And extend the reach of your designs to new media without writing code.

Top reasons to upgrade to Adobe Creative Suite 5 Design Premium

NEW Realistic painting effects in Adobe Photoshop® CS5 Extended—Easily paint with lifelike brush strokes to create beautiful, expressive images. Blend a photo's colors; use bristle properties such as shape, length, and stiffness; or define multiple colors on a single brush and blend them into the underlying colors on your canvas.

NEW Fluid vector painting with Adobe Illustrator® CS5—Combine the expressiveness of painting with the editability and scalability of vectors. Paint freely with vectors that resemble actual brush strokes, controlling paint opacity and bristle characteristics such as shape, length, and stiffness.

NEW Easy 3D extrusions with Adobe Repoussé in Photoshop CS5 Extended—Create 3D logos and artwork from any text layer, selection, or layer mask. Twist, rotate, extrude, bevel, and inflate these designs, and then apply materials such as chrome, mud, and grass to achieve different looks.

NEW Content-Aware Fill in Photoshop CS5 Extended—Remove any image detail or object and watch as Content-Aware Fill magically fills in the space left behind. This breakthrough technology matches lighting, tone, and noise, so it looks as if the removed content never existed.

NEW Beautiful strokes with Illustrator CS5—Avoid time-consuming workarounds by using convenient width handles to adjust stroke width interactively. Precisely size and position arrowheads, align dashes symmetrically, and more.

NEW Simplified object selection and editing in Adobe InDesign® CS5—Perform exacting layout tasks efficiently. Manipulate frames and frame content without switching tools. Dynamically adjust white space between objects to reposition page items. Use on-object controls to modify frame corners directly in the layout.

NEW Interactive content creation without writing code using Adobe Flash® Catalyst™ CS5—Transform artwork created in Photoshop or Illustrator into high-quality interactive content for web pages, user interfaces, and applications. Flash Catalyst lets you define buttons, scroll bars, sliders, page transitions, video players, and more—without touching a line of code.

ENHANCED Create dynamic digital documents with InDesign CS5—Add attention-grabbing interactivity, animation, movies, and sound to your digital documents and presentations with InDesign CS5. Export to the SWF file format for playback in Adobe Flash Player.

NEW Superior typography in Flash Professional CS5—Make sure your typography looks as good onscreen as in print—preserve typography when handing off layouts from InDesign to Flash Professional. A new text engine in Flash Professional supports text styling, text layout control, multiple columns, and more.

NEW Adobe CS Live online services* integration—Connect the power of the Internet with the design software you use every day to streamline processes such as creative reviews and previewing web pages. CS Live online services are complimentary for a limited time—visit www.adobe.com/go/cs-live for details.

* CS Live online services are complimentary for a limited time. See page 2 for details and limitations related to all Adobe online services.

System requirements

Windows*

- Intel® Pentium® 4 or AMD Athlon® 64 processor
- Microsoft® Windows XP with Service Pack 3; Windows Vista® Home Premium, Business, Ultimate, or Enterprise with Service Pack 1 (Service Pack 2 recommended); or Windows 7
- 1GB of RAM or more recommended
- 9.3GB of available hard-disk space for installation; additional free space required during installation (cannot install on removable flash-based storage devices)
- 1280x800 display with qualified hardware-accelerated OpenGL graphics card, 16-bit color, and 256MB of VRAM
- Some GPU-accelerated features require graphics support for Shader Model 3.0 and OpenGL 2.0
- Some features in Adobe Bridge rely on a DirectX 9-capable graphics card with at least 64MB of VRAM
- DVD-ROM drive compatible with dual-layer DVDs
- Java™ Runtime Environment 1.5 (32 bit) or 1.6
- QuickTime 7.6.2 software required for multimedia features
- Adobe Flash Player 10 software required to export SWF files
- Broadband Internet connection required for online services*

Mac OS

- Multicore Intel processor
- Mac OS X v10.5.7 or v10.6
- 1GB of RAM or more recommended
- 10.3GB of available hard-disk space for installation; additional free space required during installation (cannot install on a volume that uses a case-sensitive file system or on removable flash-based storage devices)
- 1280x800 display with qualified hardware-accelerated OpenGL graphics card, 16-bit color, and 256MB of VRAM
- Some GPU-accelerated features require graphics support for Shader Model 3.0 and OpenGL 2.0
- DVD-ROM drive compatible with dual-layer DVDs
- Java Runtime Environment 1.5 or 1.6
- QuickTime 7.6.2 software required for multimedia features
- Adobe Flash Player 10 software required to export SWF files
- Broadband Internet connection required for online services*
