

FILEminimizer Server

Office and image file compression on servers. Optimizes primary storage, saves storage space and accelerates backups.

FILEminimizer Server compresses PowerPoint presentations, Word documents and Excel spreadsheets as well as image files in the formats JPG, TIFF, BMP, GIF, EMF and PNG directly on the file server by up to 98%.

The original format is retained so that files can be opened and edited - without any decompression needed.

With an average compression rate of over 70%, FILEminimizer Server helps IT Administrators to instantly gain back enormous storage space, save on data transfer and storage costs and shorten backup times.

Functions

- Microsoft Office file compression on servers by up to 98%
- Image file compression on servers by up to 98%: lossless compression on images in the formats JPG, TIFF, GIF, EMF, BMP and PNG
- Supports all Microsoft Office files from Office 97 through 2010 (DOCX, PPTX, XLSX)
- Keeps the original file format and functionality - no unzipping required
- Multi-Core Support: perform fast optimizations using every processor on your server
- Scheduler for automated server optimizations

FILEminimizer Suite

Compresses PowerPoint, Word, Excel and image files by up to 98% without changing the native file format. No decompression needed.

FILEminimizer Suite compresses PowerPoint, Word, Excel and image files by up to 98% without zipping. The software sports an intuitive interface and lets you optimize the size of your Microsoft Office files (97-2010) as well as your JPG, TIFF, BMP, GIF, EMF and PNG image files without changing the native file format or quality.

It integrates into Microsoft Office and into your email program (supports Microsoft Outlook and Lotus Notes clients) and can optimize your office and image attachments directly before sending. It relieves Microsoft Exchange and Lotus Domino email servers.

Functions

- Compresses all Microsoft Office formats: PowerPoint 97 to 2010, Word 97 to 2010, Excel 97 to 2010
- Compresses JPEGs and photos as well as BMP, PNG, TIFF, GIF and EMF images
- Keep the original file format - no unzipping required
- On-the-fly optimization of email attachments in Microsoft Outlook and Lotus Notes
- Add-ins for Microsoft Office and Windows Explorer
