

Dr.WEB®

for Qbik WinGate

Defend what you create

**Anti-virus and anti-spam scan of
HTTP/POP3/FTP traffic of an SMTP
and proxy server Qbik WinGate**

© Doctor Web 2010

Key features

Anti-virus and anti-spam scanning of messages and their attachments sent via SMTP and POP3;	SMTP/POP3
Anti-virus scanning of files and data transferred over HTTP and FTP	✓
Curing of infected files transferred over HTTP	✓
Customizable list of data transfer protocols for scanning	✓
Adjustable scanning parameters, e.g. the maximum size and types of objects to be scanned and the actions to be performed with infected objects	✓
Enabling/disabling detection of particular types of malicious programs; when a threat is detected, Qbik's settings determine what action is to be taken to neutralize it	✓
Customizable actions for files that cannot be scanned	✓
Detection of malicious objects compressed with various packers	✓
The compact and efficient anti-spam module sets Dr.Web for Qbik WinGate apart from its competitors	✓
The anti-spam requires no training and allows you to set different actions for different categories of spam, and to create white and black e-mail lists;	✓
Customizable actions performed with different types of objects, e.g. including moving them to the quarantine or adding specific prefixes into their subject fields	✓
Log of errors and events in the Event Log, which contains information about module parameters, as well as notifications about viruses detected in infected messages and individual outbreaks	✓
Isolation of infected files in either the Dr.Web quarantine or the WinGate quarantine	✓
Viewing contents of the quarantine and then restoring and/or forwarding quarantined files	✓
Back up of cured files in the quarantine	✓
Features native control panel and quarantine manager	✓
Automatic updating	✓

License types

- Per number of users; the number of users is not limited.
- Per server license; the amount of Qbik server traffic is not limited, and up to 3,000 users can be protected.

SMTP proxy is an additional component that can be licensed with Dr.Web for Qbik WinGate. Using SMTP proxy together with the products significantly improves overall network security and lowers the workload on local mail servers and workstations.

License variants

- Anti-virus
- Anti-virus + SMTP proxy
- Anti-virus + Anti-spam
- Anti-virus + Anti-spam + SMTP proxy

Dr.Web for Qbik WinGate is also included in low-cost bundles for small and medium businesses.
