OmniPage Professional 17 The Professional Choice for High Volume Document Conversion

OmniPage Professional 17 is the world's most powerful and accurate document conversion application. It

was created specifically to address the wasteful, inefficient process of dealing with information trapped on paper and locked in digital files. Amazing 99%+ character accuracy turns paper and PDF files into electronic files you can edit, search and archive in the format of your choice. Automate all your document conversion with easy-to-use, one click workflow technology. Plus, encrypted and password protected PDF output ensure that security and compliance are never an issue. Whether you want to make paper digital, create batches of PDF files, or collect data from filled electronic forms, let OmniPage do the work and watch your productivity soar.

SUPERIOR TECHNOLOGY, BETTER RECOGNITION = LESS EDITING

OmniPage Professional 17 delivers an unprecedented 42% increase in accuracy thanks to a technique pioneered by Nuance called Hyper-Binary Conversion for scanned documents. Hyper-Binary Conversion uses the extra layer of information found in enhanced scanned images to detect even subtle differences between text and the page background, thereby allowing the removal of any background noise and leaving only the text. The result is unparalleled character fidelity and an unprecedented leap in accuracy. OmniPage Professional 17 provides superior format and page layout recognition to insure that your documents look just like the original – complete with text, tables and graphics.

GET MORE ORGANIZED AND BATCH CREATE PDF FILES – INCLUDES PAPERPORT AND PDF CREATE SOFTWARE – FREE!

Award-winning PaperPort® software allows you to organize, view and find over 150 document and photo formats. Batch create 100% industry-standard PDF files from all of your applications using PDF Create.

LEADING THE WAY IN MICROSOFT SHAREPOINT AND DMS CONNECTIVITY

Scan to your Microsoft Sharepoint® server and access documents from anywhere in your organization. OmniPage Professional 17 features an improved SharePoint® 2007 Connector and is now enabled with Open Text Hummingbird® and Autonomy®-Interwoven® iManage Connectors. Plus, linearized PDF, PDF/A compliance and PDF 1.7 support means your archived documents are always accessible. Open source formatted documents are archivable and searchable forever.

SCAN TO NETWORK

OCR to any format, anywhere on the network.

ARCHIVE & ACCESS DOCUMENTS

Save to your Microsoft® Sharepoint® server. Open source formatted documents are archivable and searchable forever.

The Power of OmniPage Professional 17

Superior OCR accuracy

Improved OCR engines deliver 99%+ accuracy for document conversion and archiving business-critical documents.

Maintain perfect formatting

Converted documents look exactly like the original and are easier to edit than ever before, complete with columns, tables, bullets and graphics.

Mobile document capture

Use an iPhone® or digital camera to take photos of text or scan a document and convert into a readable format for the Amazon® Kindle® electronic book reader.

Supports all your favorite applications

Supports the widest range of output formats, including PDF, Microsoft® Word, Excel®, PowerPoint® 2007, Corel® WordPerfect®, HTML and many more formats.

Automated batch processing

Schedule large volumes of files for batch processing from folders or email with unattended automation for real time processing of documents.

Complete forms processing

Convert paper forms to fillable forms and distribute electronically. OmniPage can collect data from PDF or paper forms and export to a spreadsheet- or database-compliant format.

Built-in automatic redaction and highlight

Redact or black out confidential text or quickly locate information with highlights. OmniPage can recognize and automatically mark up your text based on a list of key words.

Innovation for the Mobile Professional

Use your digital camera or cellphone just like a scanner! Capture the image of any text on your digital device and convert it to text that you can edit. Supports cellphones including iPhone, and features improved 3D correction for JPEG photos of documents.

Leading the Way in Microsoft SharePoint and DMS Connectivity

Features new support for Open Text Hummingbird Connector, Autonomy-Interwoven iManage Connector, and improved support for Microsoft SharePoint connectivity.

Recognizes over 120 languages

Process, edit and store documents from anywhere in the world. Now supports Chinese, Japanese and Korean languages.

“I have been using OmniPage Professional 16 and I immediately noticed that OmniPage 17 is both faster and more accurate. The new Hyper-Binary Conversion consistently delivers fewer errors than OmniPage 16 on my scanned documents. This saves me considerable time as I am often scanning documents longer than 50 pages long. The improvement is both noticeable and greatly appreciated.”

– Anne Wold

FORMS MADE EASY – FROM START TO FINISH

With OmniPage you can turn paper forms into electronic PDF forms and then collect the data. OmniPage batch processes all your filled forms, either PDF or printed on paper, and creates a data file that can be opened in spreadsheet and database programs. Electronic forms are easier to distribute, fill and process than paper forms – OmniPage makes it easy to do it all.

System Requirements:

- Computer Processor: 400 MHz for Windows XP, 1 GHz for Windows Vista. Dual-Core or Quad-Core processor recommended for advanced performance.
- Windows® XP 32-bit (SP3), Windows® Vista™ 32-bit (SP1), Windows® Vista™ 64-bit (SP1).
- 256 MB of memory (RAM), 1 GB recommended for advanced performance.
- 230 MB of free hard disk space for the application files and sample images, plus 70 MB working space during installation.
- An additional 170 MB for RealSpeak® Solo speech modules.
- 100 MB for PDF Create 5 and 250 MB for PaperPort® 11.
- A scanner with its own scanner driver software for scanning documents.
- 2 megapixel digital camera or higher for digital camera text capture. Autofocus feature is required for phone cameras.
- Web access needed for automatic product activation and Scanner Wizard database updating.
- Microsoft .NET Framework 3.0 for Office 2007 and XPS formats.

SUPPORTED DOCUMENT MANAGEMENT SYSTEMS

- Microsoft SharePoint® Portal Server 2003 and 2007.
- Open Text Hummingbird Enterprise 2005.
- Autonomy-Interwoven (iManage) WorkSite 8.2.
- ODMA Link supporting a broad range of document management systems. Check with the vendor of your specific service to see if they work with ODMA.

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements. This is especially true when converting very large color PDF files. OmniPage has been specifically engineered to take advantage of multi-core processors.

The Nuance Open License Program is the most cost effective way for your company or organization to easily purchase multiple licenses of OmniPage Professional 17, as well as services and support. For details visit: www.nuance.com/sales/volumelicense/
