

# Parallels Desktop<sup>®</sup> 6 Switch to Mac Edition™

# Simply

Everything you need to make the move from PC to Mac **smart** and **simple**.

## Move Smart and Simple

You're ready to switch to Mac. But how do you get everything off your PC and to your Mac? Your music, pictures, videos, files and browser favorites – pretty much your whole life is on that computer. With Parallels Desktop<sup>®</sup> 6 Switch to Mac moving is as simple. Parallels Transporter™ moves everything from your PC to your Mac in a few simple steps.

## Learn the Mac

Parallels Desktop<sup>®</sup> 6 Switch to Mac Edition makes it simple to learn Mac OS X. The unique interactive, on-demand video tutorials have easy to understand, step-by-step instructions on all the features of your Mac. Simply click a feature and get a complete lesson on how to use it. It's a Mac expert at your fingertips; ready to answer your questions whenever you have them.

## Run Both Seamlessly

With Parallels Desktop users truly get the best of both Windows and Mac. The award-winning Parallels Desktop<sup>®</sup> 6 for Mac is the easiest, fastest way to run Windows-on-Mac. With Parallels Desktop, Windows is fully integrated into the Mac system, so your applications, files and even external USB devices are accessed the same as if they were native to the Mac. No rebooting required.

# Go Ahead! Make the Move to Mac!

# The #1 choice of customers worldwide\*

## A complete suite of moving tools in the box:

- The enhanced Parallels Transporter™ manages the move of your old system to your new Mac.
- Move the way you want, using a network, external storage or the Parallels High-Speed USB Transfer Cable which is the quick and convenient way to just plug and go.
- Movies, music, pictures, documents and applications and even your browser favorites are all available for use on your Mac when the move is complete.

## Get to know your Mac with the best set of learning tools available today:

- User-directed tutorials mean you learn only what you need to know.
- Interactive on-demand tutorials take the confusion out of learning the ins and outs of the Mac.

## Run Windows on your Mac, without rebooting. No compromise!

- Have the Mac you want and still use the Windows programs you need.
- Windows programs can be launched right from the Mac Dock.
- You can copy & paste and drag & drop files and data between Windows and Mac applications.
- Run Windows-based 3D games and graphics programs on your Mac.

### System Requirements:

- Mac OS X 10.5.8 Leopard or later/Mac OS X 10.6.3 Snow Leopard or later
