Advanced Server Side Email Security

Visendo Software Solutions Overview

Visendo Software Solutions is a global technology and independent software vendor (ISV) specialized in **internet systems integration** on Microsoft technologies.

Headquartered in Germany with multiple offices in Germany, Austria and Romania, **Visendo** has become one of the most innovative and dynamic electronic communications providers on the European Market.

We are proud of..

> **The quality of our products** Our customers evaluated us as a five-star-provider in terms of reception, atmosphere and competence of our employees. Microsoft rewarded us with the highest "Gold" , "Learning" and ""Independent Software Vendor" partner status.

> **The experience of our team** The true value of any IT solution provider is seen during the entire lifecycle of any product. We have supported with our faxing and Email solutions, in the last 12 years, companies of all types and all sizes.

> **Our innovative development skills** An extraordinary partnership with **Microsoft** gives us a glimpse into the future plans of the Redmond based software company. Our staff is regularly in direct contact with the developers from Microsoft. Thus, we can evaluate new technologies in their early stages.

> **The high level of competency of our developers** There are many ways to reach a goal. However, only a few are optimal. About **20 Microsoft Certified Trainers and Solutions Architects** continuously research and create solution scenarios for each of the latest technologies and integrate them to our **Fax and Email Solutions**.

> **Visendo support team** You will be delighted with our support team. In reaching the highest levels of quality of software solutions, we are aware that support is mission critical. This is why we are always close to our clients.

Our Vision

We strongly believe that innovation is the main driver of success.

Technology Partners

Visendo is continuously innovating

The choice is either to innovate or to fall behind.

We keep up with the latest technology trends

Visendo's hybrid fax solutions mixes our powerful enterprise-class fax servers with hosted **fax technology**.

Visendo Fax Solutions can be easily integrated with online services from Microsoft, IBM, Google

We sustain business productivity

Visendo Email and Faxing Solutions can be integrated with famous Unified Communications Solutions, and other business productivity solutions: BPOS, CRM, ERP from Microsoft, SAP, IBM, ORACLE

Our solutions are developed bearing in mind business mobility and ubiquity

We have developed our faxing solutions for mobile gadgets and smart-phones: iPhone, IPAD, Android based mobile phones, Windows Mobile.

We are interested in saving resources and protecting the environment

Our Faxing and Email Solutions run flawlessly on virtual machines enhancing resources sparring and environment support.

Visendo Faxing Solutions bring a further "GREEN IT" touch by deploying and running the faxing solutions on MINI-PCs from various providers.

..and we are havin fun with the latest WEB 2.0 trends

Our further products will include social media connectivity.

Visendo Faxing Solutions

Fax is a strategic communication channel, yet many organizations do not manage it as such. Often, no one is responsible for the fax machine maintenance and supplies, the phone bill, the lost time for employees manually printing and faxing.

Visendo Email Solutions

Electronic messaging is mission critical, but remains vulnerable to a growing array of threats. Viruses, worms, denial-of-service attacks, spam, legal e-discovery and the need to satisfy a growing set of regulations all make effective message management increasingly difficult.

Visendo offers a wide range of email solutions to assist companies in meeting complex e-mail requirements, including services for e-mail filtering, distribution, archiving and continuity assurance that help businesses communicate with confidence.

Visendo Email Suite Features

Visendo security for email servers

- ☒ multi-engine spam and malware scanning
- ☒ active content, connection and policy-based filtering
- ☒ relay control
- ☒ SMTP authentication
- ☒ IP shielding
- ☒ bandwidth throttling
- ☒ real-time message trace and reporting
- ☒ disaster recovery

Visendo email connectors

- ☒ native POP3, SMTP, IMAP with SSL connectors
- ☒ dynamic distribution & routing rules
- ☒ rapid search and retrieval
- ☒ fully functional backup e-mail system

Visendo email archiving

- ☒ support to help satisfy industry and regulatory retention requirements granular reporting and auditing capabilities
- ☒ rapid search and retrieval
- ☒ fully functional backup e-mail system

Simplified Management

- Simplifies IT environment by minimizing the need to deploy, configure, monitor, and update in-house e-mail security servers and applications
- Helps free network and server resources
- Eliminates up-front capital investment
- Offers a predictable, subscription-based payment

Enterprise Class Reliability

- scales to meet the needs of virtually any enterprise
- SLA-supported uptime and performance
- backup email system: rapid disaster recovery
- secure, strategically located, as out-of-the-box solution

Active Protection

- Layered real-time anti-spam and anti-malware defenses
- Eliminate threats before they reach the corporate firewall

Unique mailing solutions

Visendo Email Solutions are out of the box, intelligent and platform independent solutions that can be used as independent applications or as part of unified messaging platforms.

Security solutions for any email server

There are no restrictions in terms of email servers solutions

Platform independent solution

There are no restrictions for the platform the solution runs on

Advanced Bayesian filter solution

multi-language support
based on multiple SPAM probabilities algorithms
automatic whitelisting, 3rd party DNS Blacklist, 3rd party URL Blacklist

Advanced integrations

SharePoint, Active Directory, Databases for document and email archiving

Unified messaging and business intelligence systems integration / out of the box custom made UM platform
