Embed / attach any type of file to a PDF

Platforms:
Windows 7 / XP / 2003 / Vista / 2008
includes x64 Platforms

What is a Time Stamp Authority (TSA) ?

A time-stamping service supports assertions of proof that a document
existed before a particular time. This is all done in a cryptographically secure manner.

Put simply, if you can trust the time of a TSA, then you can trust the document signing time in the
PDF thus proving the existence of a document at a certain time.

What is a Certified PDF?

A Certified PDF is a digitally signed PDF that is makes its signed status more obvious. When a
certified PDF is viewed in Adobe Reader, a dialog box will automatically appear showing the
document status, such as the following:

pdf**Machine Demo** - Create PDF Free :

pdfMachine demo is our free trial version of pdfMachine.

pdfMachine demo allows unrestricted use of all features.

A small pdfMachine advertisement is placed at the bottom of each page of the generated PDF.

To use pdfMachine without the advertisement being generated, you need to purchase a license and register the software.
