

pdfMachine SDK

Overview

pdfMachine SDK is a Software Development Kit (SDK) for PDF conversion and manipulation. (pdfMachine SDK was previously called pdfServMachine.)

- COM API, .net webservice and command line.
- Easily convert your HTML, text and Microsoft Office (Word, Excel, PowerPoint) files to PDF.
- Integrate PDF generation into virtually any application that can print.
- Manipulate existing PDF documents.
- Add digital signatures to PDF documents. Supports local and server based signature calculation.
- pdfMachine SDK runs on Windows NT/2000/XP/2003/Vista. Microsoft Office has to be installed to be able to convert MS Office files to PDF.

pdfMachine Demo - Create PDF Free :

pdfMachine demo is our free trial version of pdfMachine.

pdfMachine demo allows unrestricted use of all features.

A small pdfMachine advertisement is placed at the bottom of each page of the generated PDF.

To use pdfMachine without the advertisement being generated, you need to purchase a license and register the software.
