

## What Can UltraCompare Do For You?

### Text Editing

Do you work with text files and ever lose your place or forget which is the most current file? Ever wonder what the differences are between file versions?

### Programming

How many times have you wanted to compare your code between source code versions? Whether you are a lone developer or work as part of a team, you need UltraCompare to inspect your code changes.

### System Administration

We all know we should make backups - but what happens when something goes wrong and you need to compare your backup with your current system to see what has changed. That's where UltraCompare can save you time and ensure accuracy.

### Remote Files

Do you work with remote files that you need to compare? Use FTP/SFTP to download your remote files, perform compare/merge operations, then save your files back to the server. It's that easy.

### Everyday Use

Have you ever needed to compare two versions of a Word document to see what's changed? If you have reports or contracts that multiple coworkers are adding to, how will you track your changes?

IDM Computer Solutions, Inc presents:

# UltraCompare

File/Folder Compare the Way it Should be Done...

## A Powerful File/Folder Diff Tool

UltraCompare Professional is a powerful compare/merge application loaded with features to enable users to track differences between files, directories, and .zip/.rar archives. With automatic integration with UltraEdit or UJStudio, UltraCompare Professional is a tool no user should be without!

**File Compare** features include text and binary compare of two or three files at a time as well as the ability to merge differences between files. Also includes Word document and Rich Text File (RTF) compare.

**Folder Compare** supports comparison of local/network directories (and subdirectories with recursive compare) and .zip,.rar, and .jar archives. Comparing and merging differences between your archives and directories is a snap!

UltraEdit and UJStudio include UltraCompare Lite, but if you're not using UltraCompare Professional... you're missing out! UltraCompare Professional includes a wide-range of additional features including:file merge, full folder compare/merge operations, three-way compare and merge, remote file/folder compare support, inline editing, ignore options, synchronization, fast binary compare, customizable reports, and much more.

## UJStudio/UltraEdit Integration

You need more than an editor, you need a file management solution. For individuals and corporations alike, there is no other solution available that offers the level of control over your workflow than the UltraEdit/ UltraCompare or UJStudio/ UltraCompare solution.

UJStudio and UltraEdit are designed to work seamlessly together with UltraCompare Professional giving you the perfect dovetail of editing, programming, comparison, merging, and synchronization tasks.

Save 33% or more on UltraCompare Professional when you bundle it with UltraEdit or UJStudio.
